EXPERIENCE

3 ROLES · 4+ YEARS

APRIL 2025
– PRESENT

Senior Web Developer · Varshaa Weblabs

- PricerPro and EstateBlock — real-estate platforms, property data and search infrastructure
- Backend, frontend, API integrations, performance, security and AI functionality
- Expanded into AI and LLM development, including a custom image-and-audio to video application

Laravel · Vue 3 · REST APIs · Elasticsearch · Redis · Cloudflare · Python

APRIL 2025 –
PRESENT · ALONGSIDE

INDEPENDENT

Shopify & e-commerce development · Independent work

- Lekore.in and Divija Jewels — independent Shopify storefronts
- Pursued outside employment; not undertaken for or on behalf of Varshaa Weblabs

Shopify · Shopify Liquid · SCSS · JavaScript · Figma

MARCH 2025
– APRIL 2025

INDEPENDENT

Independent developer & team lead · Freelance

- Built and led a small team — an app developer, a frontend developer and myself
- UpPlus.com.au, TradWay International, KioskifyGo and LocliqX
- Handled backend, APIs, admin systems, project management and clients

Laravel · CodeIgniter · Next.js · Flutter · WordPress

JUNE 2023 –
MARCH 2025

Senior Developer & Project Manager · Orpol Infotech

- Joined a three-person core team and helped build the company's technical foundation
- Technical planning, architecture, client communication, team coordination and delivery
- FCRM / FCRM Pro, Lavish Jewel ERP, SK Enterprise, White Wings and CloudWorks

Laravel · PHP · MySQL · REST APIs · Tailwind CSS

2023 · FOUR MONTHS

INDEPENDENT

Independent developer · Freelance

- ABKPS, ABKPS HRM, Radhaki.in, Fillbin.com and Kanaiya Dairy Farm & Sweets
- Took responsibility for projects directly rather than working inside a team

Laravel · PHP · MySQL · WordPress

JUNE 2022 –
FEBRUARY 2023

Junior Developer · Sourcecube Technologies Pvt Ltd

- Six Udenz projects, a matrimony platform, a real-estate rental project, DocuSign and Spin integrations, and a UAE visa project
- Worked across backend and frontend inside existing production codebases
- Debugging, bug fixing, API and database work, and performance improvements

PHP · Laravel · MySQL · JavaScript · Bootstrap · jQuery

THE FOUNDATION

First project in PHP · Paid final-year project, built for a BCA student

- Handled the project end to end — development, database, testing and delivery
- First complete application built from scratch

PHP · MySQL

EDUCATION

2020	Higher Secondary · Gujarat Secondary Education Board
2020 – 2023	Government course — IIT Cyber security · Web design · Development · UI · UX

SKILLS

BACKEND	FRONTEND	MOBILE

WordPress · Shopify · Shopify Liquid · Multi-vendor e-commerce	Git · GitHub · cPanel · Linux · VPS · Nginx · Apache · Cloudflare · Deployment · Server management	Cloud LLMs · Local LLMs · AI APIs · TTS · Python · AI integrations · AI-assisted development

SELECTED PROJECTS

12 OF 32

Tpa.udenz.co A dental insurance platform for the MENA region — claims, billing, provider and patient records and audit trails, shared by the practices that treat and the payers that settle. tpa.udenz.co	Sourcecube Technologies	Locliqx An application ecosystem: a Next.js web application, a Laravel administration panel and APIs, and a Flutter mobile app. locliqx.com	Freelance
Lab.udenz.co What sits between a dental practice and its laboratory — quote requests, case images and messaging, live job tracking, payments and reviews, in one place. lab.udenz.co	Sourcecube Technologies	TradWay International A site for an Indian medical and pharmaceutical exporter — the export workflow, specialisations, leadership profiles and enquiry capture, animated on scroll. tradwayinternational.webwriterstudio.com	Freelance
Raise.udenz.co A crowdfunding platform for dental treatment — campaigns verified by a licensed dentist, funds held until the treatment is confirmed done, and donations that can be left anonymous. raise.udenz.co	Sourcecube Technologies	Lekore.in An independent Shopify storefront for Korean beauty and baby products — the project that moved me from PHP e-commerce into the Shopify ecosystem. lekore.in	Shopify · Independent
Upplus.com.au A site for an Adelaide physiotherapy practice across three clinics — treatments, practitioners and online booking on the front, an administration panel behind it, built on CodeIgniter from the Figma designs. upplus.com.au	Freelance	Divija Jewels A premium jewellery storefront — gold, diamond, silver and platinum — built from Figma designs, with 360° product views.	Shopify · Independent
PricerPro A modular Laravel real-estate platform with an agent panel, property valuation and property comparison. www.pricerpro.com/home	Varshaa Weblabs	EduSuite A school management platform — five role panels over one Laravel backend, covering admission, attendance, fees, examinations, library and the school's own public website. edusuite.webwriterstudio.com	Independent product
EstateBlock A real-estate data platform built around MLS and property data, where search performance and security were the hard parts. estateblock.com	Varshaa Weblabs	MoveEasy Mobility A WooCommerce storefront for mobility equipment — manual, electric, travel and reclining wheelchairs — built on WordPress with Elementor Pro.	Freelance

RECOGNITION

Future 100 Companies 2023 · UAE Ministry of Economy

Udenz was selected for the UAE Ministry of Economy's Future 100 Companies 2023. The award is the client's — I built six Udenz projects as a developer at Sourcecube Technologies Pvt Ltd, the development partner.
